

Seymour Johnson AFB

Vet Clinic Information

Seymour Johnson AFB VTF (Veterinary Treatment Facility)

1003 Collier Ave, Bldg 1904, Goldsboro, NC 27531

919-722-1465 FAX 919-722-1466

AVAILABLE SERVICES AND INFO:

Any information here may change without notice.

Hours of Operation: Monday thru Thursday from 1000-1500, Closed Fridays, Weekends, all Federal Holidays and the last working day of the month for EOM work. Other unscheduled closings could include Training days and Staff Leave.

We recommend calling before coming. When we are closed, signage on the door will indicate future office hours.

We are NOT a full service clinic. We do not have an on-site veterinarian. Our veterinarian is from Ft Bragg, usually two days a week when available. We do not see sick or injured animals and we offer no surgeries. **Emergencies** can be handled by your local veterinarian or ECVETS in Wilson @ 252-265-9920.

Services Available: All services are on a space available basis. There are times due to veterinarian shortages where no veterinary appointments are available for a period of time. However, some services may still be available during that period.

Dogs:

Rabies, DA2PP, Kennel Cough, Lepto, fecal check, heartworm checks, microchip, deworming, anal gland expression, nail trim, Wellness exams

Cats:

Rabies, FVRCP, Leukemia, fecal check, FELV/FIV testing, deworming, nail trim, Wellness exams

Wellness exams will be required for all services. A User Fee of \$2 is added to all total purchases.

Supplies for sale includes:

Frontline Plus, Heartgard Plus, vitamins, some shampoos, other flea products.

All heartworm prevention, as with any prescription item, must meet certain requirements before it can be sold. A **current heartworm test** from any vet and a **Wellness exam done by us yearly** will satisfy the client-patient relationship required to purchase this item.

Other information:

Vaccination and microchip implantation services will be procured at the owner's expense for all cats and dogs at the local VTF or via civilian veterinary medical service providers. Microchips should be International Standards Organization (ISO) compatible to help facilitate overseas travel.

There is no charge for base registration, unless the animal has a requirement that needs to be met. We recommend making an appointment for registration so the records can be checked and info can be given about heartworm prevention and flea and tick issues in this area.

Breeding is NOT allowed on base.

Number of pets are limited to 2 cats or dogs or combination of.
